

Welcome state, territory, tribe, extension, EPA regulators and pesticide safety educators. We look forward to sharing Wyoming hospitality with you the week of May 21 - 25, 2012 in Cody Wyoming.

We are compiling the agenda with topics of interest, finding dynamic guest speakers, as well as addressing concerning issues relevant to each of us.

Plan on joining us in the city of Cody, which was founded in 1896 and named for Colonel William F. (Buffalo Bill) Cody, and serves as the eastern gateway to Yellowstone National Park.
