

PROGRAM OBJECTIVE - This program is designed to give the user of a water supply sufficient data about the general water quality, so that decisions may be made concerning its suitability for irrigation.

Cations	Anions	Other	☐ Metals
Calcium	Carbonate	Conductivity	Boron
Magnesium	Bicarbonate	pH	
Sodium	Chloride	TDS by Summation	
Potassium	Fluoride	SAR	
Nitrate + Nitrite as N		Hardness	
Sulfate		Total Alkalinity
