

The Pesticide functions of the WDA Technical Services Division are primarily:

- Compliance Assistance and Enforcement of the Wyoming Environmental Pesticide Control Act of 1973
- Compliance Assistance with EPA Rules and Regulations
- Training, licensing, certification and/or inspection of pesticide users, dealers, commercial applicators, and public agencies using restricted use pesticides
- Management of pesticide/groundwater State Management Plan (SMP)
- Worker Protection Standards (WPS) Training

Supplemental Pesticide Labels

- [Section 18](#)
- [Section 24\(c\)](#)

Section 18:

[Section 18 Guidelines](#)

[Apivar \(Amitraz\)](#)

For the control of Varroa mites in honeybee colonies

[Dimilin 2L](#)

For the control grasshoppers and Mormon crickets in alfalfa and mixed grass/alfalfa hay.

[HopGuard](#)

For use in beehives to control Varroa mites (Varroa destructor) on honey bees

Section 24(c):

[Section 24C Guidelines](#)

[Acramite 4SC](#)

For control of spider mites in alfalfa grown for seed

[Asana XL](#)

For grasshopper control in CRP land

[Assail UPI](#)

For control of lygus bugs in alfalfa grown for seed

[Basis Blend](#)

For the control of weed only on “CHRYSLITE” variety of sulfonylurea tolerant chicory form Florimond

[Basagran](#)

For control of weeds in alfalfa grown for seed

[Beleaf ISK](#)

For control of lygus bugs and aphids in alfalfa grown for seed

[Beleaf FMC](#)

For control of lygus bugs and aphids in alfalfa grown for seed

[Brigade 2EC](#)

For control of lygus bugs, weevils, aphids, and spider mites

[Chateau](#)

For control of weeds in alfalfa

[Chateau SW](#)

For control of weeds in alfalfa grown for seed

[Comite](#)

For control of spider mites in alfalfa grown for seed

[Dibrom 8E](#)

For control of Lygus bugs in alfalfa grown for seed

[Dimilin 2L](#)

For control of grasshoppers in alfalfa grown for seed

[Discipline 2EC](#)

For control of aphids, lygus bugs, thrips, spider mites, and weevils in alfalfa grown for seed

[DRC - 1339](#)

For control of Common Crows (*Corvus brachyrhynchos*), Common Ravens (*Corvus corax*), Boat-tailed

[DRC - 1339 - Livestock, Nest & Fodder Depredations](#)

For control of ravens, crows and magpies that cause threats to human health and safety, livestock, ser

[Dual Magnum](#)

For control of weeds in radish grown for seed

[Firestorm](#)

For the desiccation of clover for the harvest of seed

[Fusilade DX](#)

For control of quack grass in alfalfa grown for seed

[Gramoxone SL 2.0](#)

For use as a harvest aid in alfalfa grown for seed

[Intrepid 2F](#)

To permit low volume aerial application (5 gpa) on dry beans and sugarbeets

[Mustang Max 8 EC](#)

For control of seedling and foliar pest in sugar beets

[Onager](#)

For control of spider mites in alfalfa grown for seed

[Paraquat SL](#)

For the desiccation of clover for the harvest of seed

[PYthon Ear Tag](#)

To control biting midges on sheep as an aid to reduce transmission of bluetongue

[Prozap](#)

For control of prairie dog (**March 1 - June 30**) on rangeland & adjacent timber

[Sonalan HFP](#)

For control of nightshade in alfalfa and clover grown for seed

[Supracide 2E](#)

For control of certain insect in alfalfa grown for seed

[SunPac, Mildew Zone](#)

For decontamination of leafcutter bee nesting material

[ZP Ag Oats](#)

[Bell-Motomco](#) For prairie dog control in alfalfa, wheat and barley

[ZP Rodent Oat Bait Ag](#)

[Bell Labs](#) For prairie dog control in alfalfa, wheat and barley
